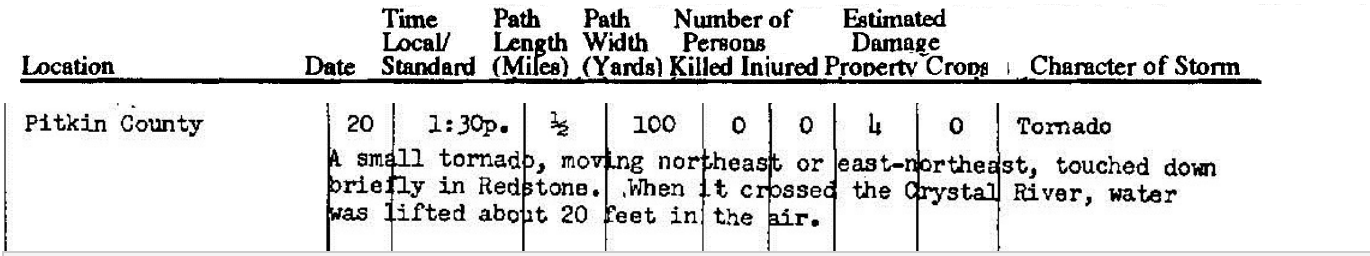
**Narrative Image from Publication:**



| Location | Date | Time Local/ Standard | Path Length (Miles) | Path Width (Yards) | Number of Persons Killed | Injured | Estimated Damage Property | Crops | Character of Storm |
|---|---|---|---|---|---|---|---|---|---|
| Pitkin County | 20 | 1:30p. | ½ | 100 | 0 | 0 | 4 | 0 | Tornado |

A small tornado, moving northeast or east-northeast, touched down briefly in Redstone. When it crossed the Crystal River, water was lifted about 20 feet in the air.

This image of the narrative was extracted from the historical 06/1975 Storm Data Publication. Please refer to the Database Details page for more information or the NCEI Image and Publication System for access to all NCEI publications.

**Event Map:**

Note: The tornado track is approximate based on the beginning (B) and ending (E) locations. The actual tornado path may differ from a straight line.
